

Ammar Ahmed, Cairo, Egypt

ammarsaleh890@gmail.com + 20 1090387028

I am a **Computer Engineering student at Ain Shams University** with a strong passion for technology, programming, and problem-solving. I actively practice competitive programming and problem-solving using C++. With two years of experience as a front-end developer, I have honed my skills in HTML, CSS, and JavaScript. Beyond academics, I thrive in ping-pong, demonstrating strategic thinking and agility.

Education

- **Freshman Computer Engineering student in the Credit Hours Program, Faculty of Engineering, Ain Shams University (Expected graduation: 2028).**
- Graduated from **Obour STEM High School for Science, Technology, Engineering, and Mathematics with A-grade (GPA: 4)**

Technical Skills

- Studied the basics of **Arduino and python** and applied it in **two automated** school projects (**ECHO VISION** and **CHLORO SEA**).
- **Level 1,2** trainee with **ASU ECPC**, a **competitive programming community** which focuses on **problem solving** training and skills through sheets and contests.
- Studied the **HTML and CSS and JS** courses **online** from El-zero Web School and applied on seven independent projects for websites on GitHub.
- Attended a program which sponsored by **Egypt FWD** that provides the basics of **front-end development** and how to deal in labor market.

Projects

- **ECHO VISION**: An automated camera that helps blind people to read the text loudly and describe the images.
- **CHLORO SEA**: A smart automated system that maintains suitable plant environment for the algae to grow rapidly.
- **Logical Argument Evaluator**: Built a truth table generator to check the satisfiability and validity of logical arguments using custom input of premises and conclusion.
- **Fireboy and Watergirl Game (C++/SFML)**: Developed a two-player puzzle platformer inspired by the classic Fireboy and Watergirl series, focusing on cooperation-based level design and real-time character control. Implemented game physics, keyboard input handling, collision detection, and dynamic level rendering using the SFML library.
- **Event Management System (Java/JavaFX)**: Designed a role-based desktop application for managing events with Admin, Organizer, and Attendee roles. Implemented user authentication, event creation, room allocation, and wallet-based registration using JavaFX and OOP principles.
- **Front-end Projects on GitHub**:
 - 1- **Ammar world template**: this project to showcase my skills in HTML and CSS. It's goal to practice on animations and transitions between sections and emphasize item alignment.
 - 2- **Sparkle Creative Template**: This template is specifically designed for a hypothetical 4-member team specializing in website creation, graphic design, web design, and app development.
 - 3- **amazing-login**: This project concerns on making a log-in page with an animated wavy background.

Achievements

- Got granted a **Full Scholarship** to study **Computer Engineering** in the Credit Hour Program at **Ain Shams University**.
- Participated in the **American Mathematical Olympiad (AMO)**, achieving a **silver medal** and attaining **the 4th place** nationwide in Egypt.
- Participated in **international astronomy and astrophysics competition (IAAC)**, successfully passed **the third filtration**, and won a **bronze medal**.

Volunteering & Extracurricular Activities

- Attended two-week online **Future Generation of Scientist (FGS)** summer program 2021/2022.
- Attended **Your Big Future** summer program in 2022/2023. which challenges young leaders across the world to build positive bridges between diverse cultures.
- Attended a workshop in **synthesis & characterization of nanomaterials** and their different applications by the faculty of postgraduate studies of nanotechnology, Cairo university.
- Achieving **3rd** place in the **Boys' Table Tennis Championship** for secondary school and progressing to **the national level**. Additionally, ranked in the **top 50** at the national level.
- In the annual **volleyball league** in our school, we won four matches and achieved **the first place** with earning a **gold medal**
- Former **Marketing Vice-Head** at STEM Obour **mentorship program** for new STEM students.
- Past **Marketing member** at TEDx El-Minya.
- Former **Marketing Head** at Model Arab league (**MAL**) student activity.
- A past **Marketing Head** at **FabLab** Obour STEM team.
